

Albert Gilrie Fatally Injured During Storm

An accident on the highway about two miles south of Didsbury on Tuesday afternoon, April 17, claimed the life of Albert Gilrie, when his truck was struck by a Greyhound bus.

The accident occurred when Gilrie was out cleaning the windshield of his truck during the snow storm, and the bus struck the truck from the rear and flung the aged man onto the road. He was brought to the Didsbury hospital immediately, but passed away about 8 p.m. from shock and injury.

Mr. Gilrie was 85 years of age and a resident of Didsbury for 8 years. He was an ardent harness race enthusiast and owned and drove his horses at harness race meets throughout Alberta, being the oldest owner-driver in the circuit. Born in Walkerton, Ontario, Mr. Gilrie moved by St. Clair to Oak Lake, Manitoba, in 1886. In 1909 he went to Morris, Alberta, and in 1916 to Edmonton. Three years later he moved to Delta, residing there until 1943, when he moved to Didsbury.

He was a member of Knox United Church in Didsbury and the A.O. T.S. of the church; and the Didsbury Curling Club.

Mr. Gilrie is survived by five sons, Russell E., Vernon A. and Harvey R., of Didsbury; Sgt. Lloyd G. Gilrie with the Army Service Corps in Ottawa, and Bertrum in Sexsmith, Alberta; 14 grandchildren; a brother, R.L. Gilrie of Vancouver, and three sisters, Mrs. Thomas Bell and Mrs. D. Giles of White Rock, B.C., and Mrs. E. Fiske of Kelso, Saskatchewan. His wife predeceased him in 1944.

Funeral services were held from Knox United Church, on Saturday, April 21, at 2:30 o'clock, with Rev. C. C. Armstrong officiating. Interment followed in the Didsbury cemetery with Didsbury Funeral home in charge of arrangements.

Machine dealers report sales fairly brisk these days, and with the possible cut in steel allocations for machinery farmers seem to be preparing for the day when new farm machinery is a scarce article.

Large Attendance At Lone Pine W.I. Meeting

The Lone Pine W.I. met at the home of Mrs. Chris. Ethert with an attendance of 17 members and six visitors. The meeting opened by singing and repeating the Creed. Roll call was answered by Grace Hints, and the minutes of the last meeting were read and adopted.

Correspondence was read and the sum of \$5 was voted to the Salvation Army. Two delegates were appointed to attend the convention at Edmonton. It was decided to give the local hall a spring cleaning, and the matter of curtains was left till a later date.

The secretary reported that \$13.70 had been made from the lunch served for the Agricultural society at the hall.

Mrs. G. Rathburn gave an interesting paper on Agriculture. The ten-cent draw netted \$2.70 and was won by Mrs. J. won by Mrs. Frank Jackson of Westerdale and Edward Waldroff. Consolation prizes went to Mrs. Cliff Gibbs and Vic Snyder. Mrs. C. Gibbs also retained the travelling prize. The proceeds of \$8.00 were turned over to the Zella W.I. to be forwarded to the Crippled Children's Hospital.

Mrs. Dan Cowie and daughter of Red Deer spent a week at the home of Mr. and Mrs. Ed Craig on May 9.

Mr. and Mrs. Eggin's Entertain At Zella Party

Mr. and Mrs. Bill Eggin's opened their spacious and newly remodelled home to the community on Friday evening for nine tables of whist. Due to the bad storm the party was postponed from Wednesday until Friday. Ladies' and gentlemen were won by Mrs. Frank Jackson of Westerdale and Edward Waldroff. Consolation prizes went to Mrs. Cliff Gibbs and Vic Snyder. Mrs. C. Gibbs also retained the travelling prize. The proceeds of \$8.00 were turned over to the Zella W.I. to be forwarded to the Crippled Children's Hospital.

Mrs. Anna Anderson of Calgary spent a few days with Mr. and Mrs. Jim Johnston. She became quite ill with the flu and was taken to Didsbury Wednesday to spend a convalescent period with a friend, Miss Willison.

Alberta weather! There is much to be said for and against it. With the aid of shovels and the snow plow traffic finally moved again after two days of the big blow.

Town Tax Rate For 1951 Reduced To Forty-Five Mills

At the regular meeting of the Council of the Town of Didsbury on April 16, two building permits were issued, one to Ed Jans for the construction of a work shop on the north side of his house, and the other to Mrs. Edith Wahl to move a house on to the lot east of the Hans Olsen house.

The 1951 mill rates were thoroughly discussed and the tax rate for the year was set at 45 mills, a reduction of three mills from last year. The municipal tax rate was set at 17½ mills; school 21 mills, and hospital 6½ mills.

The tax reduction was made possible by the 3½ mill unconditional grant from the provincial government, and an additional tax reduction subsidy of three mills due to a three-mill tax reduction from the 1950 mill rate of the Town. The "tax reduction subsidy" is based on the 1949 assessment and the 6½ mill grant will amount to approximately \$7,000.

E. W. Nowers reported that the increased assessment of the Town

was approximately \$61,000.

A petition was presented to Council by local business men, asking for closing of shops Saturday night at 9 p.m. except during the months of January, February and March, when the closing hour would be 6:00 p.m. and Council authorized the preparation of a by-law which appears elsewhere in this issue.

Construction of a new road to the H. Wood corner west to the W. Payne corner was authorized. The road is to be 44 feet wide with provision made on each side for an eleven-foot boulevard and sidewalk.

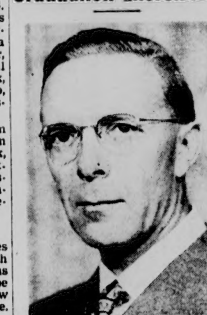

Purchase of a one-ton truck to be used for the maintenance of the water system was authorized.

A communication from Calgary Power Limited asked for permission to meet Council regarding an increase of domestic power rates from one cent per kilowatt hour to one and one-half cents per kilowatt hour and the matter will be discussed with power company officials at the next meeting.

Principal Speaker At Graduation Exercises

Premier E. C. Manning delivered the Commencement Address for the graduates of Mountain View Bible College at the United Missionary Church on Monday evening, April 23, and the church building could not accommodate the large crowd. A loud speaker system was arranged for the overflow crowd in the basement, which somewhat relieved the crowded situation.

While last-minute space does not permit full account of the Premier's address, suffice it to say that his remarks were full of meaning and interesting to the people in general as well as to the graduates.

NEWS ITEMS OF LOCAL INTEREST

—Don't forget the big fishermen's night in the Lions' hall tonight at 8:00 p.m. There will be prizes for the best fishing costume for both men and ladies, a good program and a lunch, all free. Come as the guests of the Didsbury Fish and Game Association.

—Dr. McKenzie is taking a post-graduate course at Edmonton and his office will be closed from Saturday, April 28, until Monday, May 7.

The weather on Monday and Tuesday of this week has been mild with light frosts at night and temperatures around 55 above during the day. The snow has all disappeared and streets and roads are drying rapidly.

DIDSBURY HOSPITAL BIRTHS

Born at the Didsbury hospital to Mr. and Mrs. Jim Hooper on Wednesday, April 18, a girl.

To Mr. and Mrs. Jake Sawatzky on Thursday, April 19, a girl.

To Mr. and Mrs. Albert Newton on Friday, April 20, a boy.

To Mr. and Mrs. Robert Sutherland on Sunday, April 22, a girl.

To Mr. and Mrs. Ralph Koester on Monday, April 23, a boy.

GEN. DWIGHT EISENHOWER (light mackinaw) stands in a group of officers of the U.S. Second Army, who are at the time of the visit to the Didsbury training grounds. He is wearing a light mackinaw and is surrounded by officers in uniform.

W. A. Evening Group Meet at Franklin Home

The Evening Group of Knox United Church W.A. met at the home of Mrs. O. Franklin on Monday, April 23 with eleven members and five visitors present. Three of the visitors joined the Group before the meeting closed.

Mrs. W. W. Gilrie and Mrs. E. G. Ramon were visitors from the Affirmation Group.

Roll call was answered with house cleaning hints, and Mrs. Lila Wiggins gave a report on the Freshery meeting held in Lacombe on April 6.

Preparations were made for a food sale, sale of articles, and tea, with a special attraction for grandmothers, to be held May 12.

At the conclusion of the business a delightful lunch was served by the hostess and a social hour enjoyed.

Liberals To Contest Grouard Bye-Election

According to an Edmonton report the Liberal party is preparing to open its campaign in the forthcoming provincial bye-election in the Grouard constituency of the north. Liberal organizer J. P. Connors left Monday for the north where he will be joined next week by party leader Harper Prosser. The Liberal candidate is J.R. Defosses of Fehler.

Meanwhile, the Social Credit party is completing arrangements for its nominating convention May 2 at High Prairie. It is indicated that at least four candidates will seek the nomination.

Announcement of the date of the bye-election is expected shortly. The Grouard seat became vacant through the resignation of Dr. J. B. T. Wood of High Prairie, the Social Credit member since 1948.

The 2nd Didsbury Troup of the Boy Scouts will collect old newspapers and magazines on Saturday, April 28. Housewives are asked to have papers and magazines ready for the boys when they call.

HONOR DEPARTING MEMBERS

The Evening Group of Knox United Church W.A. invited the Afternoon Group to a very enjoyable tea at the home of Mrs. Bert Prevost on Wednesday, April 18, in honor of three members who are leaving the Group to move to other towns, Mrs. J. Garner, Mrs. G. Parsons and Mrs. C. Leeson.

Mrs. E. Wiggins, Mrs. W. McCoy and Mrs. R. McArthur, on behalf of the Group, presented each with a cup and saucer and plate in appreciation of faithful services for the past years, and wished them well in their new homes.

A delightful lunch was served by the hostess.

South West Didsbury

Mr. and Mrs. Carl Meyer, accompanied by Mr. and Mrs. J. R. Arnold were Bowden visitors Tuesday, and returned after visiting for several days with Mr. and Mrs. Meyer.

Mr. and Mrs. Ed Clayton and Katherine were Sunday visitors with Mr. and Mrs. E. Dippel.

Mr. and Mrs. H. W. Folkman and family were Sunday visitors with Mr. and Mrs. Otto Folkman.

Mr. and Mrs. J. B. Hipkin and family were Sunday visitors with Mr. and Mrs. E. A. Bartz.

Mr. and Mrs. E. Good and daughter, Mrs. G. Weber and Mr. Donald Weber were Calgary visitors Monday.

Mr. and Mrs. Cecil Weber and son were Monday evening visitors with Mr. and Mrs. G. Weber.

Mr. and Mrs. W. A. Sherrick were Calgary visitors Saturday.

Miss Enith Hunsperger of Edmonton was here to attend the graduation of the 1951 class of Mountain View Bible College.

Mr. and Mrs. L. Hunsperger, Miss Enith Hunsperger and Miss Grace Hunsperger attended the Silver Anniversary banquet at Mountain View Bible College, at which Premier Manning was guest speaker.

Mr. and Mrs. Don Hansen of Olds were Sunday dinner guests of Mr. and Mrs. Fred Befus.

Mr. and Mrs. Fred Befus and family motored to Calgary Monday evening to attend the Fun Parade and enjoyed the program.

Mr. and Mrs. Cliff Eckstrand and family, Mr. John Tittsworth and Mr. and Mrs. John Tittsworth and family were Sunday dinner guests of Mr. and Mrs. Herman Tohm.

J. J. Zubick Speaks To Walther Leaguers

Mr. J. J. Zubick, Calgary, served as guest speaker at the Walther League meeting held on Tuesday, April 17, and drawing on his many experiences in life, spoke on "Getting Adventure Out of Life".

During the business session the League voted for district officers of the Alberta-British Columbia District of the Walther League. The balance of the evening was devoted to games.

Mr. Zubick, assisted by his wife, took motion pictures throughout the evening of the group in its various activities, and lunch brought the evening to a close.

Knox Church W.M.S. Plan Special Service

The W.M.S. of Knox United Church met at the home of Mrs. Bruce Parker for the regular monthly meeting on Monday evening, April 16. There was a good attendance of members and three visitors were present.

Mrs. Parker conducted the worship period, the theme being "Good-will".

Plans were made for the affiliation service of the C.G.I.T. with the Missionary Society. The service will be held on May 2nd, and all mothers are invited to this service. Mrs. C. Armstrong will be guest speaker. The W.M.S. will serve refreshments during the social hour.

Mrs. Reid Clarke took the study on "Which Way Japan?" An interesting discussion took place on the four questions raised: (1) Is Japan's desire for peace genuine? (2) Is Japan likely to adopt communism? (3) Should Japan be permitted to increase trade with North America? (4) Is there a great future for the Christian Church in Japan?

At the close of the meeting the hostess served lunch and was assisted by Mrs. Roach, Mrs. R. Clarke and Mrs. G. Neave.

Mrs. Wordie, the secretary, was absent due to illness and the good wishes of the Society were extended to her for a quick recovery.

Census Takers Will Carry Credentials

When the census enumerator calls on you this June at your home, your place of business, or on the farm, he or she will present credentials in the form of a small card issued by the Dominion Statistician. It states that he or she has been appointed by the Minister of Trade and Commerce for the census of 1951, and has the authority to collect the information required by law from everyone in Canada.

The card will have the enumerator's signature, and will be countersigned by a Census Commissioner.

The enumerator will also carry an official portfolio, on which there will be the district number, the number of the subdistrict in which you reside, and the enumerator's name and address. In the portfolio the enumerator will have the census documents which are required to be completed by asking questions, the answers to which will be checked off or written down on the documents.

An enumerator is not authorized to conduct any private business while making a call. All enumerators have taken an oath, under severe penalties, to ask questions, not to divulge to anyone any of the information given.

The material gathered by the enumerator is immediately transcribed to anonymous cards which bear no indication of the identity of the individual.

To Recruit Women For Armed Services

While Defence Minister Claxton hasn't disclosed publicly any plans for the recruiting of women for the defence program, the magazine "The Roundel," has stated that there is going to be a women's division in the peacetime R.C.A.F.

Mr. Claxton is expected to make the declaration official shortly when he launches Commonsense on his departing ship for \$1,000,000 estimates in the present fiscal year.

The gist is expected to be that, in the beginning, the R.C.A.F. will be the only one of the three services to recruit women. In time, however, all three forces are expected to have full-time women's divisions.

And all three are expected to be authorized to recruit women for their reserve forces from the beginning.

However, the minister may simply say definitely that women will be recruited without saying when.

Various problems barring a start on the enlistment of women, including a lack of clothes and accommodation, are believed on the way to a solution.

The number to be recruited, at least in the first year, is expected to be relatively small and no special administrative set-up for them is planned at this stage. The number will probably run somewhere around 5,000.

U.N. and U.S.A. Sign Postal Agreement

Under a special agreement recently signed by the United Nations and the United States, a U.N. Post Office Station operated by the U.S. Post Office Department will soon be established at U.N. Headquarters, replacing the present U.S. Post Office there. Under the agreement U.N. will issue its own stamps in eleven denominations ranging from one cent to one dollar and airmail stamps in four denominations. Signing the agreement are, from left to right: New York's Postmaster Albert Goldman; Ambassador Warren R. Austin; U.N. Secretary-General Trygve Lie; U.S. Postmaster-General Jesse Donaldson; Bertil Renberg, Head of the U.N. Postal Administration.

RADIOACTIVE HOUSEFLIES

Refuting the old belief that houseflies continue their activities to the area surrounding their birth place, experiments conducted by the U.S. department of agriculture showed that a housefly can pick up disease germs in a garbage-ridden neighborhood and carry them to a victim four miles away in less than one day.

Commenting on these tests, C.I.L. Agricultural News says that the flies used in the experiment were fed radioactive phosphorus, released at a central point and collected in baited traps at various distances from the center. The captured insects were then tested for radioactivity with a Geiger counter.

Some radioactive flies were found as far away as four miles from where they were released which indicated that houseflies were by no means "stay-at-homes."

EXTRA PAYMENT NOT POSSIBLE

Rt. Hon. Louis St. Laurent, prime minister of Canada, told a delegation from the Farmers' Union of Alberta, Saskatchewan and Manitoba that a further payment out of the federal treasury on the five-year pool in wheat was out of the question.

The delegation asked for another \$18 million on the grounds that wheat for domestic consumption in Canada in two post-war years had been sold at much cheaper than the export rate, Canadian consumers were thus bonused to the extent of 3c a bushel on 150 million bushels of wheat.

NOT SAME PERSON

In the April 10 issue of the "Albertan" this article appeared: "August Krebs admitted having liquor in his possession when apprehended March 23, but he was freed on a dangerous driving charge when court was told the driver of the car with which he is alleged to have been in collision, could not be traced. He was fined \$20 and costs or 30 days on the liquor count."

For those who have been making a scandal talk in the community about this, and for those who were listening to the talk between Mrs. Ross Youngs and Mr. and Mrs. August Krebs at the dance at Melvin hall last Friday night, please notice that the article does not read, "August Krebs of Didsbury."

MRS. AUGUST KREBS
Office of the Chief Constable,
City of Calgary, Alberta.

To Whom It May Concern:
This is to certify that the August Krebs convicted under the Liquor Act in the Calgary City Police Court on March 31st, 1951, is not August Krebs of Didsbury, Alberta.

"Your Satisfaction is Our Success"

Notes From The D.A.

(By Hugh McPhail)

Another recent addition to our pamphlets in the office is the revised Fertilizer Circular. Prepared by the Alberta Advisory Fertilizer Committee, this circular shows the benefits to be derived from the use of fertilizers and provides official recommendations for their use in Alberta. In addition to producing profitable yield increases, other benefits from the use of fertilizers include promotion of earlier and more uniform maturity of the crop, the reduction of weed growth and the maintenance of soil fertility.

The Alberta Advisory Fertilizer Committee is appointed by the Minister of Agriculture and includes representatives from the Dominion and Provincial Departments of Agriculture and commercial fertilizer companies. The duties of the committee is to correlate and guide fertilizer investigations and testing, to recommend kinds and rates of fertilizer, application for farm use, and to safeguard the interests of agriculture by encouragement of good soil management practices.

The recommendations are based on results obtained during many years of fertilizer testing under farm conditions. Fertilizers are recommended only on the basis of profitable yield increases.

Farm labor is scarce now and there are no prospects of the situation improving.

Interest in Bangs disease increased during 1947—6700 cattle tested. During 1950—28,887 cattle tested.

Out of 70 municipalities and improvement districts where tests were made, 58 had reactors. This stresses once more the importance of calfhood vaccination and purchasing vaccinated animals.

Mountain View Community Hall United Missionary Church Rev. W. D. Annett, Pastor

SUNDAY, APRIL 29

10:45 a.m.: Sunday School.
11:45 a.m.: Worship Service.
Jack Archer, a recent graduate from Mountain View Bible College, will bring the message.
8:00 p.m.: Young Peoples' Service. Miss Gretha Anderson of Denmark will relate the remarkable story of her conversion to Christ.
A hearty invitation is extended to you to come and worship with us in these special services.

UNITED CHURCH OF CANADA Rev. C. C. Armstrong, B.A., B.D. Minister.

Westcott Church 11:00 a.m.
Westcott Sunday School 12:00 a.m.
Knox Sunday School 11:00 a.m.
Westerdale Church School, 2:30 p.m.
Knox Church 7:45 p.m.
We extend to you a cordial invitation to attend these services.

CHURCH OF NAZARENE HARMATTAN

10:30 a.m.—Sunday School.

The pastor and congregation extend a cordial invitation to every one to worship with us. "Come and we will do thee good."

PHEASANT EGGS TO EASE ALBERTA LOSSES

Serious pheasant losses near Brooks in the Eastern Irrigation district will be partly remedied by a shipment of pheasant eggs which the Game Branch of the Department of Lands and Forests has ordered from the United States.

Approximately 14,000 pheasant eggs will be placed in incubators at the Provincial Pheasant Hatchery near Brooks and hatched. When the game birds are 12 weeks old they will be shipped to areas of the Province whose pheasant populations were depleted during severe winter blizzards.

The Brooks area, which lost from 75 to 90 per cent of its pheasants in the blizzards, will receive most of the hatch. Consultation between the Game Branch and the Alberta Fish and Game Association will establish where other birds from the hatch will be sent.

Pheasant losses from this winter's blizzard were more serious in the southern part of the Province where there is little heavy cover to protect the game birds. The pheasants died as a result of wet snow icing under the birds' wings and forcing them to land. As the birds attempted to land, the weight of ice hurled them to the ground. Most of the pheasants died from broken backs and necks, examinations have disclosed.

N.W.T. SCHOOL FOR ALBERTA CHILDREN

An unique example of co-operation between the Alberta Government and the Dominion Government is carried out every day of the school year over a 16-mile strip of road between Fort Fitzgerald, Alberta, and Fort Smith, Northwest Territories.

For some time the Government of Alberta has allowed the Northwest Territories Administration to use its school curriculum. When a modern school offering schooling up to Grade XII was opened in Fort Smith in 1949, the Government of Canada asked the Government of Alberta and the Fort Fitzgerald School District if the new school could be used by Fort Fitzgerald children.

The Fort Fitzgerald school was inadequate so the courteous offer was accepted and through the co-operation of the Hudson's Bay Company, which provided bus transportation over its own road from Fort Fitzgerald to Fort Smith, The Fort Fitzgerald children go outside their own Province to school.

Between 30 and 40 students make the 16-mile trip to Fort Smith and not a day was missed this winter despite temperatures of 55 and 60 below zero and snow drifts. Hudson's Bay Company bulldozers kept the road open.

RECIPE FOR A BOY

Take a pair of spindleshanks
Dangling from a tree.
A big toe bandaged with a bow.
A turned-up dungaree;
Take a mouth that bleeds with jam,
A nose of second skin,
A shock of crew-cut auburn hair,
A corrugated shin.

Take a mind that can encompass
Rockets out in space,
But not a simple detail such as
Hanging clothes in place.

Add a heart of purest gold
With just enough alloy
Of Puck to prove his metal,
And you have—a boy!

—Virginia Moody Hagan

OLD STUFF

With quite a flourish the other day the Russians announced a new boon to world agriculture. This was a super tough type of cattle produced by crossing the ordinary domestic cow with the Yak, a triple purpose farm animal of Tibet where it provides milk, meat and transportation.

The Russians herald this as a new and revolutionary discovery, but over 50 years ago an enterprising Ontario lumberman started crossing domestic cattle with the buffalo. His experiments were taken over by the federal agricultural de-

partment and the Yak was introduced. It was decided that the first cross was too drastic. The Russians will probably discover what Canadian agricultural scientists have long discovered, that this new hybrid has limited possibilities.

In agriculture as in many other lines, the Russians have been claiming many "discoveries" which to them may be new but to the rest of the world are old stuff.

A NANNY GOAT on a farm just south of Denver, Col., gave birth recently to quadruplets — three males and a female. The smiling kiddie with the armload of kids is Patricia Hynes, 5, daughter of the farm owner, who says that this is the fourth set of littered-goats born on his farm since 1941.

OLDSMOBILE

LAUNCHES AN ALL-TIME GREAT

ALL NEW "ROCKET"

SUPER

New Gas-Saving "Rocket" Engine!
Now it's more than ever the high-compression leader in popularity... in brilliant response... in fuel efficiency! Yes, the new "Rocket" for 51 size you get all its famous disk and dash plus brand new gas-saver savings!

A General Motors Value

Equipment, accessories, and trim illustrated subject to change without notice. *Oldsmobile Hydra-Matic Drive optional at extra cost on all models.

Above: Oldsmobile Super "88" 16-Luxo 4-door sedan. Oldsmobile also offers new Series "98" models for 1951.

New... new... all the way through! It's Oldsmobile's glamorous new Super "88"... the smartest — the most exciting — the most advanced "88" ever! It's new outside — with brand-new beauty from the smart free-flowing lines of its brilliant new body by Fisher! It's new inside — with interiors that are deep, luxurious and more spacious than ever before! It's new underside, too — with a rugged new chassis, firm foundation for the new "Rocket" Ride!

And it's new in power, too! Yes, the eight-cylinder "Rocket" Engine is new! Famed for its flashing action the new 135 horsepower "Rocket" is engineered for even greater gas savings in 1951!

Of course there's wonderful Hydra-Matic Drive,* too — and even it is improved!... gives you still easier operation and "Instant Reverse"!

Come in and see this all-time great Super "88" today!

NEW SUPER "88" OLDSMOBILES... NOW ON DISPLAY!

Waugh, Ken	212
Wood, Miss Alice	212
Wood, Mrs. D. B.	237

Carry your own boat in your pocket when you go on the next camping trip. This new inflatable vessel is made of plastic and weighs less than six pounds, folding into a small parcel.

Plant Indicators Used In Native Pastures

By keeping a close watch on the condition and dominance of such grasses as spear-grass and June-grass in native pastures, farmers and stockmen, especially in the light brown soil zones, can determine the carrying capacity of their pasture land. When these grasses begin to deteriorate it is time to consider better pasture management.

Overgrazing or misuse of native pasture lands is generally accompanied by a marked change in the grass cover. On most prairie soils this takes the form of a considerable increase in conspicuous weed plants, such as pasture sage, broom-weed, gum-weed, catnip, and flax-weed, all of which may become very noticeable. At the same time a more important but less conspicuous change is taking place.

The better and more palatable plants, including spear-grass, June-grass and wheat grasses are decreasing, and blue grama grass and low sedge are becoming more dominant. Continued overgrazing will result in the pasture becoming almost entirely dominated by low sedge and its carrying capacity will be greatly reduced. The better grasses are generally short lived perennials and must be given an opportunity to reproduce if these species are to survive.

Where spear-grass is dominant, 20 to 25 acres per season per head of cattle will probably be a safe figure to us, but where blue grama grass dominates at least 30 acres are needed. When, however, the drought tolerant low-sedge is dominant, the pasture has so far deteriorated that it should not be grazed until the grasses have had time to come back. Pastures that have had any reasonable care will not reach this low stage, which is the result of great abuse.

Any great change in the appearance of a pasture should be carefully noted as it may indicate improvement or deterioration.

THE 1951 AGRICULTURE CENSUS

Beginning June 1 this year a census enumerator will visit each of the 73,000 farms in Canada to obtain answers to a series of questions about the farm. The last census of agriculture for all Canada was taken in 1941 and for the prairie provinces in 1946. Many farmers will therefore have had previous experience in answering questions on the agricultural schedule, but for some it will be the first experience.

The schedule for 1951 has been shortened considerably. Most of the questions are straightforward, such as acres devoted to crops, numbers of live stock on farms, and inventories of equipment. Some questions will require estimates by the farmer, such as value of his farm, and value of the home garden. These questions are sometimes hard to answer but the information is of great value and is needed for adequate appraisal of the agriculture industry. Farmers will also be asked the number of animals sold off farms, production of crops in 1950, and certain major expense items. No attempt will be made to obtain a balance between expenses and receipts; in fact, many of the questions of this nature have been dropped from the 1951 schedule.

It must be emphasized that the census enumerator is duty bound to obtain a report about every farm in Canada, and each farmer is asked to co-operate by being prepared to give him as accurate a statement as possible. Enumerators are pledged to keep all information given them confidential, as are also all employees of the Bureau of Statistics. The law provides penalties for any violation of this pledge. Further, the Bureau of Statistics may not divulge the business of an individual to any government department nor to anyone outside the government. Every farmer may thus feel assured that the information he gives about his farm will not become known to any person except those who handle the census schedules in the course of their official duties, and it will only be used in statistical compilations where its identity entirely disappears.

FEEDS ON TIME

Now you can go away and not trouble the neighbors about feeding your pets. Food tray for pets has timer with bell at one end. A three-sided steel cover keeps food on tray from pet until bell rings; then tray moves automatically into feeding position. Finished in gray hammer-tone, the article is tilt-proof and rust resistant.

WHERE DOES THE MONEY GO?

At times most of us have looked at purse, wallet or bank-book, and wondered, "Where does the money go? You may have wondered, too, where does our money go—the money we receive for gasoline, fuel oil, lubricants and other products we sell. Well, last year each dollar we received went this way:

CRUDE OIL and the other raw materials we bought took half of each dollar.

OPERATING AND ADMINISTRATIVE expenses took more than 25 cents. This was the cost of searching for and producing crude oil, and of manufacturing and marketing the hundreds of products we supplied for thousands of uses. Throughout the year high quality products were made available where and when you needed them.

TRANSPORTATION of products from our refineries to marketing points took the next big bite of the dollar. Products moved over wide areas to serve every community in Canada.

TAXES to provincial and federal governments took 7.64 cents. And this did not include gasoline tax which—depending on where you live—took from 22 to 35 cents out of every dollar you spent for standard grade gasoline.

TO REPLACE worn out equipment and to make sure that we can supply your needs in the future took 3.59 cents.

DIVIDENDS paid to shareholders for use of plants and equipment amounted to 3.45 cents.

IMPERIAL OIL LIMITED

TOWN OF DIDSBURY

NOTICE

NOTICE is hereby given that a petition has been presented to the Council of the Town of Didsbury under the provisions of the Early Closing Act, praying for the passing of the following closing by-law.

The Mayor and Council of the Town of Didsbury, in Council assembled, enact as follows:

1. The term "Shop" in the By-Law shall mean and include any premises or place where retail trade is carried on and shall also include the premises or place in which an artisan carries on his trade, but the expression "Shop" shall not include any premises where any of the following businesses are carried on:

Post Office business; the sale of medicines and surgical appliances; the sale of intoxicating liquors as prescribed by law; the sale of refreshments for consumption on the premises; the sale of tobacco and other smoker's requisites; the sale of newspapers; the business carried on at a railway bookstall or at a railway refreshment room; Garages and Service Stations.

2. No "Shop" shall be kept open for business in the Town of Didsbury nor shall any business be conducted therein after 9 o'clock p.m. on all Saturdays from the first day of April to the 31st day of December, both days inclusive, in any year.

3. No "Shop" shall be kept open for business in the Town of Didsbury nor shall any business be conducted therein after 6 o'clock p.m. on all Saturdays from the first day of January to the 31st day of March, both days inclusive, in any year.

4. No "Shop" shall be kept open for business in the Town of Didsbury nor shall any business be conducted therein after 12 o'clock noon on all Wednesdays from the first day of January to the 30th day of November, both days inclusive, in any year.

5. In the case of a shop wherein several trades or businesses are carried on to any one of which this by-law does not apply, such shops may be kept open after the closing hour mentioned in Clauses 2, 3, 4 hereof for the purpose of those trades and businesses only to which this by-law does not apply, and on the front door there shall be printed in English, in type not less than one inch high, the following words: "This shop is closed by law except for the sale of (here detail exempted merchandising)." 6. Any person violating any of the provisions of this by-law shall be liable on summary conviction to the penalties imposed by the Early Closing Act.

NOTICE is hereby further given that objections to the petition presented to the Council praying for the passing of such by-law on the ground that such petition is insufficiently signed or otherwise affecting the validity or sufficiency thereof, must be filed with the Secretary-Treasurer on or before the 30th day of May, 1951, and that if no such objections are filed before the said date the Council will forthwith proceed to pass the said Closing By-Law.

Dated at Didsbury, Alberta, this 25th day of April, 1951.

F. L. EVANS,
Secretary-Treasurer,
Town of Didsbury.

NEW! NEW! NEW!
FAIRBANKS-MORSE
CONVERTIBLE
EJECTOR
WATER SYSTEM

A REVOLUTIONARY NEW TYPE SYSTEM - EASILY CHANGED FROM SHALLOW TO DEEP WELL

This simple kit is all you need for Deep Well Conversion.

A simple conversion kit enables you to change from shallow to deep well service with one pump! It is easily installed inside the pump.

Here's how it works. You install the Convertible Ejector as a shallow well system. When you need more water, or when falling water levels compel you to go to greater depths, all you do is install the low-cost conversion parts to change to deep well duty. You are saved the expense of an entirely new water system. Available in 1/2, 3/4, 1 or 1 1/2 hp. models that can be installed over the well or away from it. Get full details now!

CONTROL THOSE WIRE WORMS

Wire worms take their toll of spring planted cereals crops in an insidious way. The crop may appear unhealthy with perhaps 25% or more of the new plants turning brown and dying off, with the remaining plants stunted and growing slowly. If your crop takes on this appearance, the likelihood is that wire worms are at work. They are most likely to show up where grassland, especially brome, has been plowed within recent years. Any field rotation including a period of grass may lead to crop damage by wire worms. Crop yields can be very seriously affected by them.

REMEDY:

If you are afraid that your crop will suffer from wire worm damage you can take the precaution of treating the seed with one of the following seed dressings: "Mergam" C, Lindane or "Abol." These preparations can be effectively used on wheat, oats, barley, rye, corn or sugar beets. "Mergam" C in addition to containing 40% hexachloride for controlling wire worms, also has 2% mercury equivalent for controlling smut and other seed-borne diseases. These preparations can be applied to the seed grain by ordinary dry seed treaters. A good rule to remember is this: treat your grain so that you will be applying 2 to 2½ ounces of dust per acre. Apply to wheat at least 24 hours, and to oats and barley at least 8 days before seeding.

CAUTION:

Do not treat seed earlier than two weeks before planting.

Avoid very deep seeding or exceptionally early sowing.

Do not feed treated seed to livestock or poultry.

The cost will run around \$1.00 to \$1.25 per acre, and one treatment is good for three years or more. The increased yield will pay for the cost of treating seed many times over where wire worms are known to be in the ground.

VEHICLE TESTS COMPULSORY

Provincial government authorities appear to have launched a concerted drive in the interests of safer motoring. This need has long been advocated by the Alberta Motor Association which has called for steps to bring about greater safety and the curbing of reckless and dangerous drivers.

A bill to amend The Vehicles and Highway Traffic Act, passed at the recent session of the legislature, makes careless driving an offence for which one may be arrested without warrant, while stiffer penalties also are provided for certain infractions. Of major interest is the action of the legislature to require compulsory inspection of all motor vehicles in the province, commencing July 1. After that date no person will be permitted to drive any motor vehicle that has not been inspected within a 12-month period and has not been certified and given a sticker indicating it is safe to be on the road.

The provincial government also has announced that 36 R.C.M.P. constables will be added to the Alberta force for highway patrol duties. This will mean a 24-hour patrol service on all main highways.

WOOD CHEMISTRY

In recent years wood technology has opened up a vast field of chemistry. Soaps, lotions, cellophane, fertilizers, even ice cream flavours, are only a few of the products derived from what was formerly regarded as wood waste.

CORTISONE PRODUCTION

The production of cortisone is stated by Merck and Company Ltd., at Montreal, to have been "the most intricate and lengthiest synthetic process ever undertaken by the company." The achievement of large-scale production of the product in Canada by the company has resulted in six successive reductions in cost since 1949.

CHRISTIAN SCIENCE

The certainty of the continuity of life will be emphasized in Christian Science churches Sunday. "Probation After Death" is the subject to be discussed in the Lesson-Sermon from which these passages are taken: "For the grace of God that bringeth salvation hath appeared to all men, teaching us that, denying ungodliness and worldly lusts, we should live soberly, righteously, and godly, in this present world." (Titus 2: 11, 12). "Let the perfect model be present in your thoughts instead of its demoralized opposite. This spiritualization of thought lets in the light, and brings the divine Mind. Life not death, into your consciousness." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 407).

WESTERDALE NEWS

(Last Week)

The April meeting of the Willing Workers was held at the home of Mrs. Frank Herbert on Wednesday, April 11, with 14 members present. The meeting opened with the singing of "When It's Springtime in The Rockies," followed by repeating the Creed. Roll call was answered with "A flower I would like to grow."

It was agreed that the Society send a food parcel to England for Mrs. H. Daly who has been ill in a hospital. A motion was passed to purchase white paint for the hall, and that a ton of coal be bought and put in the bin.

It was reported that the sum of \$11.94 was raised at the seven whist parties held this winter.

It was agreed that the Young Peoples' Club be given the opportunity to put on the Picnic again this year.

The Tea Money Hostess Prize was won by Mrs. L. Jones.

The next meeting will be held at the home of Mrs. J.E. Bolton on Wednesday, May 9, at which time there will be an exchange of plant slips and roots.

The final whist party of the season was held in the Hall on Tuesday, April 10, when twelve tables were in play. High honors went to Mrs. J. Bothas of Innis Lake, and Mr. J. Cowie. Second prizes went to Mrs. John Schrader and Allen Roeth of Innis Lake, while Consolations went to Mrs. H. Jackson and Edwin Jackson Jr.

Mr. and Mrs. J.E. Bolton and Mr. J. Cowie won prizes given for the season's highest total scores in the whist parties.

Following the serving of the lunch a dancing session was enjoyed, with Mrs. R. Jackson, Jim Jackson and Mr. W. Herbert supplying the music.

Mrs. L. Jones is a patient in the Olds Hospital, having been admitted there last Thursday afternoon suffering from pneumonia. This is her first experience in a hospital during her sixty odd years, and she is reported to be progressing favorably.

Twenty-three members of the Young Peoples' Club attended the special meeting held in the hall on Monday evening. It was decided that the Secretary purchase green shingle paint for the hall roof. Mr. W. Herbert was elected to give figures on the cost and quantity of the material required to build a curling rink.

The club voted in favor of taking over the picnic again this year and also to cancel the order of a volley ball net for the present time.

Mr. Bob Nimmans was elected manager of the baseball team and Bob Jackson was elected Captain.

The next meeting will be held on May 7 in the hall.

Rev. C.C. Armstrong, announced that church services will commence at 2 p.m. instead of 2:30 p.m., as was previously arranged.

Snakes have a sense of smell which they aid by sticking out their tongue.

THE BREWING INDUSTRY OF ALBERTA

M.V.B.C. NEWS

On Monday evening, April 16 was celebrated the annual Junior-Senior banquet. Under the able supervision of John F. Wilson the Junior class sponsored the dining room was transformed into a beautiful garden scene. The delicious dinner was followed with a heart-warming program based on the Junior motto "I Am the Lord, Command Me."

From April 13 to 16 the College Seniors held their annual retreat at the beautiful camp grounds of the Evangelical U.B. Church at Elkton. This is a brief time spent in recreational relaxation as well as spiritual meditation. Mr. and Mrs. Campbell, near-by neighbors, helped out the Seniors by generously supplying milk and other farm products.

On Friday evening, April 20, at the United Missionary Church, the A Cappella Choir gave its home concert in a full house. The program was varied, featuring such classics as "When Life Begins to Fail Me"—Bach, "As Torrents in Summer"—Elgar, and the ever-appalling negro spirituals as "Ride the Chariot" arr. by W. H. Smith, "There is a Balm in Gilead" arr. by W. L. Dawson, and the relaxing "Can't Sit Down" arr. by G. L. Richardson, sung by College Quintets, and Sergei's "My God and I" is a climatic favorite, performed in a superb style.

Rev. D. M. Taylor from B.C. said, "I appreciate the work of the A Cappella Choir and director in the concert. The interpretation of each number was superb. This choir is one of the best I have ever heard." Mr. P. J. Moore, manager of Heintzman's in Calgary, was fascinated by the display of artistry in the concert, and of Mr. Richardson he said, "Your director possesses exceptional artistic ability; the deep emotional interpretation revealed in his directing shows a spirit of

unusual quality behind his work." On Sunday, April 22, in the United Missionary Church, Rev. D. M. Taylor of Winfield, B.C. and vice-president of M.V.B.C., delivered the baccalaureate address for the 12 graduates. His theme was based on the proposition that the greatest responsibility of the church is that of evangelization, and to be equipped for that the evangelist must: (1) Be something; (2) He should know something; (3) He should have something; (4) He should do something.

Excellent vocal music added to the sacredness of the impressive service.

A beautiful console organ was rented from Heintzman's in Calgary for use in the closing exercises of this 25th Anniversary Commemoration occasion. The quality of this season's music has been enhanced in the able handling of this instrument by both Mr. Richardson and Mr. Wilson.

A correction from a quotation made in the Artists' Recital of April 12. "We are privileged here in Didsbury to have two such outstanding young artists in our midst. Their interpretation of difficult works was pleasing and well received." This quotation was given by Mrs. Marjorie Leeson, not by Mrs. F. Evans. The reporter apologizes.

ALBERTA'S INDUSTRIAL GROWTH

At the end of 1950, 705 new Alberta companies and 12 foreign companies registered in the Province. During the year 19 new manufacturing industries were established in Alberta, and these new industries involved capital expenditures on buildings and machinery amounting to more than \$17,500,000.

The button is one of the oldest but most important of man's inventions. Think how we'd appear with out it!

DEPTH OF SEEDING

Heaviest yields are obtained from such crops as wheat, oats, barley, rye, buckwheat, corn, beans and Sudan grass when seeded at a depth of one inch according to experiments conducted in the Central Experimental Farm, Ottawa.

The tests were conducted over a period of four years on a sandy loam soil at depths of 1, 2, 3, and 4 inches. Yields of buckwheat and Sudan grass seeded at two inches were similar to those obtained from the one inch seeding. The four inch seeding gave fair results with corn and some of the cereals.

Depth of seeding tests ranged from surface to two inch seedlings were also run on crops with smaller seeds as clover, alfalfa and timothy. Experiments extended over a three year period showed that for best results these crops should be seeded shallow.

Highest yields were obtained from alfalfa when surface seeded and raked in, but seedlings at one-half inch, one and two inches also gave good results. Red Clover, however, gave slightly lower yields at the one-half and one inch levels and greatly reduced yields when seeded at two inches. Timothy yielded well up to and including the one inch depth, but gave poor returns when seeded deeper.

The helicopter is becoming increasingly popular for crop dusting operations.

FARM LABOR SCARCITY

There is a growing scarcity of farm labor in Alberta mainly due to the higher wages and shorter hours for city workers, and the provision of workmen's compensation, medical aid, pension payments and unemployment insurance. Farm workers do not qualify for such benefits.

O. S. Longman, provincial deputy minister of agriculture, says as a consequence of the tight farm labor situation farmers are going in more for wheat production and the production of grass-fed cattle which require a minimum amount of labor and provide maximum returns. There is a downward trend in dairying, hog production and poultry production on Alberta farms.

Mr. Longman mentioned that in 1949 city workers in Alberta received \$7,000,000 from unemployment insurance and the workmen's compensation board.

OUTLOOK FOR CATTLE

The latest letter issued by the Industrial Council of Canadian Meat Packers suggests that the outlook for cattle in Canada is favorable. Cattle prices may weaken from current levels but still be maintained at relatively good prices compared with other types of livestock. The strong demand for animal products from the United States has been the dynamic factor in the livestock situation in Canada. Exports of cattle to the United States in 1950 were equivalent to 600,000 head, or 28 per cent of the total Canadian marketings. The figure in 1949 was 500,000 head.

In 1945 the cattle population of Canada was 10,738,000. In 1950 it was down to 8,993,000. There is a possibility that there will be an upturn in cattle numbers in Canada this year.

Cigar ashes make a good silver cleaner. Apply with a damp cloth.

THE NEW 1951 OLDSMOBILE SUPER "88" now in production by General Motors of Canada is night-lighted by a new, wider and roomier body which features clear vision wrap-around windows with consequent greater visibility. The new series is readily identified by the distinctive bright saffron hood which extends diagonally down the rear fender to the gravel shield and also by the high crown rear fenders. The Super "88" is powered by the eight-cylinder "Rocket" engine which develops 125 horsepower. Hydra-Matic Drive is available as an option at extra cost. Shown here is the 1951 Oldsmobile Super "88" deluxe two-door sedan.

— DISTRICT NEWS —

MOUNTAIN VIEW

Mr. and Mrs. Harold Shultz and family were dinner guests Sunday with Mr. and Mrs. Murray McRae. Mr. and Mrs. T. J. Hunter and girls of Penhold were Sunday visitors in the district.

Mr. and Mrs. Barney Elliott attended a wedding in Stavelo on Saturday.

Mr. and Mrs. Lawrence Hunter and Mrs. Emily Hunter were Sunday visitors with Mr. and Mrs. Harold Swanson and family.

The Institute meeting which was to have been held last Thursday at the home of Mrs. Barney Elliott, was postponed on account of the storm but will be held this Thursday, April 26, and members are asked to bring material for the husk.

Mr. and Mrs. Vic Schneidmiller and boys were Sunday dinner guests at the Walter Pratt home.

Mr. and Mrs. Charles Snyder were Sunday evening visitors with Mr. and Mrs. David Pratt.

Mr. and Mrs. Walter Pratt and the Miller family were Friday evening visitors with Mr. and Mrs. Charles Pratt.

The Miller family visited Sunday evening with Mr. and Mrs. Neil McKay and twins.

Mrs. Charles Kohut was unfortunate to lose two geese in the recent blizzard.

Mr. and Mrs. Alfred Morasch and George Morasch were recent guests of Mr. and Mrs. Howard Krebs and Mrs. Annie Krebs.

Miss Agnes Tighe of Jenkins Groceteria staff, Innisfail, visited Sunday at the home of her parents, Mr. and Mrs. G. Tighe.

WEEDS COSTLY IN CANADA

When the early settlers immigrated to Canada they unknowingly brought with them a variety of weeds which are costing the farmers of this country some \$150 million annually. This sum represents one-tenth of our yearly gross income from field crops.

But this is only part of the damage wrought by weeds. Poisonous plants are the cause of heavy losses to the Canadian livestock industry. Such weeds as the death camas, arrow grass, water hemlock and milk vetch often result in death or a prolonged unthrifty condition in cattle. Other weeds are costly because of their nuisance value. Some 100,000 Canadians suffer each year from toxic pollens, the chief offender being that of ragweed. Lawns, railway and power line right-of-ways and roadways are favorite congregating spots for weeds.

At one time the control of weeds was thought to be a hopeless task. Pioneer Scottish settlers in Nova Scotia tried to impose a fine on farmers who allowed a thistle to ripen on their land or in front of their homes. But weeds continued to spread across the country, becoming so bad that some prairie farmers were forced to abandon their farms because of them.

Fortunately for the farmer, chemistry has come to his aid. In 1944 a selective herbicide, dinitro-ortho-cresol, was introduced and found highly effective in eradicating the broad-leaved annual weeds. In the fall of that same year a superior hormone weedkiller, 2, 4-D appeared on the scene. So beneficial did it prove that last year 13,500,000 acres of field crops in the prairie provinces were either sprayed or dusted with this chemical. In 1951 nearly half the anticipated 40,000,000 acres of field crops are expected to be treated.

While 2, 4-D is not effective against all weeds (wild oats for example) it did start a revolution in modern weed control. Other chemical weedkillers have been developed since and are being used to advantage for specific purposes. New ones will come out of the laboratories in the future.

Such discoveries as 2, 4-D, a host of other pesticides and chemical

EAST NOTES

The next meeting of the Lone Pine W. L. will be held on May 9 at the home of Mrs. Alfie Thompson instead of at Mrs. H. Richardson's. Please keep this in mind.

There was a surprise party at the Jay Todd home last week and five tables of court whist were played.

Raymond Schumaker and Miss Kay Griffoide were Sunday dinner guests with the former's parents.

Mr. and Mrs. Herb Ziegler and family and Mr. and Mrs. Alfie Thompson and Beverley were Sunday supper guests with Mr. and Mrs. Lloyd Clipperty and Mr. Clarence Clipperty.

Mr. and Mrs. Alfie Thompson motored to Calgary last Monday and brought back 200 chicks.

Ann Shields was a Saturday visitor with the Schumaker girls.

Mr. and Mrs. Joe Hunter and boys were Sunday callers at the home of their father's parents.

Those visiting with Mr. and Mrs. Alfie Thompson on Sunday night were Mr. and Mrs. Schumaker and girls, Mr. and Mrs. Herb Ziegler and children, George Long and Elwood Topley.

Mrs. Emily Hunter visited Friday and Saturday with the Schumakers.

We understand that Billy Coates Jr. has sold his farm to a Calgary man by the name of Allen.

Mr. and Mrs. Art Gebers and family and Mrs. Otto Bittner and children were last Sunday dinner guests of Mr. and Mrs. Sam Elliott.

WESTERDALE NEWS

Mr. and Mrs. T. Collinge and Edith of Lorne visited on Sunday last at the home of Mr. and Mrs. Ben Kershaw.

Mr. Bill Wigley of Barons, Alberta, was an over-night visitor on Saturday last at the home of Mr. and Mrs. L. Jones.

Mrs. L. Jones spent a few days convalescing at the home of her daughter, Mrs. F. J. Jackson, after leaving the Olds hospital on Saturday afternoon, where she spent nine days recovering from pneumonia.

Last Wednesday's blizzard forced the local bowlers to spend the night in Olds.

WESTCOTT ITEMS

Mr. and Mrs. Bernal Rinehart and daughter Linda and Mr. Clarence Rinehart left Monday evening on a business trip to Kimberley, B.C.

Mr. and Mrs. Herbert Goetjen were dinner guests on Sunday last at the Louis Hildebrandt home.

The storm of last week brought all the preparations for seeding to a halt, but the snow drifts are fast disappearing again and the farmers shouldn't be held up for long.

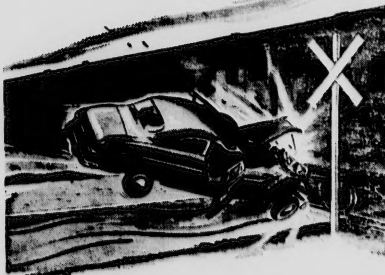

The John Bogner family of Calgary had moved up to the farm to help their sons take off the crop that was left from last fall when the storm interrupted that procedure.

FARM TO FARM TRANSACTIONS

There are no restrictions on farm to farm transactions in oats and barley. The suggestion that such is the case has recently been made in Alberta. All oats and barley delivered into commercial channels must, however, go to the Canadian Wheat Board.

Fertilizers point out the fact that one of the farmer's best friends today is the chemist.

HACKNEY STALLIONS FOR CANADA

Hackney Stallions exported to Canada and the United States have brought \$30,000 to Great Britain during the past six weeks.

VILLAGE FOR SALE PRICE IS \$250,000

NAHAMA, Mich., April 23 (AP).—This village of 750 persons is for sale, lock, stock and barrel.

It was founded 70 years ago by the Bay de Nocquet Company, a lumbering firm. It is being sold because the company's available timber supply is exhausted. Lumbering operations will end about August this year.

Company President Charles E. Good says the price is \$250,000. Included in the 4,300-acre town site are 102 houses, a general store, a company office building, a \$100,000 civic centre, 10 miles of railroad track and equipment and an eight bed hospital. A one-chair barber shop and a 17 roomed hotel go with the bargain. The sawmill has been sold.

"Nahma (pronounced nay-ma) has produced at least 1,500,000,000 board feet of timber within its own vicinity." Good said. "But... we have the problem of preventing the village from becoming another ghost town."

"We are in hopes of getting a factory to come in and employ our 250 workers who want to stay here with their families."

"It's a contented community... If we don't find another industry to take over, it would make a wonderful summer resort."

Its sandy Lake Michigan beach is three blocks from the business district. Wild life is abundant in the area, particularly deer. Chippewa and Potawatomi Indians live nearby in their own village of 25 homes.

The last boat load of lumber from here—1,000,000 board feet—shoved off Saturday.

The citizen-workmen of the village live in company houses. They pay rent ranging from \$7 to \$10 per month. More than half the homes are equipped with modern plumbing.

The company owns all property except that belonging to two churches, the civic centre and a 12 grade school.

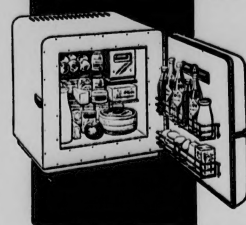

When the last cry of "timber!" is heard here, many of the villagers will be on their own for the first time.

CDR. JAMES V. STEELE, 38, of Ottawa, who has been appointed director of standardization for the Canadian Navy.
